EDUCATION

Software Development (Level 8)

Munster Technological University, Cork | Expected: May 2027

- **Relevant modules:** Data Structures and Algorithms, Databases, Mobile Development, Distributed Systems, Web Development, Software Engineering, Data Analytics, Agile Processes
- **Current grade:** First Class Honours - Overall Grade: 72%

QQI Certificate - Computer Systems & Networks

Cork College of FET, Cork | 2021-2022

- Completed one year of study, developing an interest in programming, systems and technical problem-solving
- Overall Grade: 67% | Second Class Honours

Sustainable Energy Engineering (Level 8)

Munster Technological University, Cork | 2018-2019

Junior & Leaving Certificate

North Monastery Secondary School | 2012-2018

- Favourite subjects include Mathematics, English and Physics

TECHNICAL SKILLS

Languages: Java, Kotlin, Python, JavaScript, TypeScript, SQL, Go, C, HTML, CSS

Frontend: React, Vite, Jetpack Compose, Responsive Design, CSS Modules

Backend & APIs: Node.js, Express, REST APIs, JSON, Firebase

Databases: MySQL, SQLite, Firebase Firestore, Database Design

Tools & Platforms: Git, GitHub, Docker, Android Studio, VS Code, IntelliJ, Jira, Visual Paradigm

Data & Analytics: Pandas, Matplotlib, Data Cleaning, Data Visualisation

Concepts: OOP, MVC, MVVM, Agile, Testing, Data Structures and Algorithms, Distributed Systems

PROJECTS

NeuroMind System (Group Project)

Tech stack: Kotlin, Jetpack Compose, Firebase, React, Node.js/Express, Python, TensorFlow, CrewAI, Gemini, Ollama, Git, Jira

- Developed a mobile application for dementia patients, including sign-up/login functionality and self-assessment tasks to calculate dementia risk scores.
- Connected the Mobile App to a database used by the Web App (for doctors) and included trained AI agents to assess risk scores from self-assessment results.

Movie Ratings Analytics Project

Tech stack: Python, Pandas, Matplotlib, SQL, Git, Jira

- Analysed and visualised structured datasets to identify trends, correlations and actionable insights.
- Built charts, dashboards and cleaned data workflows for academic reporting and decision support.

Creative Commissions Tracker Mobile App

Tech stack: Kotlin, Jetpack Compose, Firebase

- Developed a mobile application to manage commissions, project tracking and client information.
- Implemented structured UI flows, reusable architecture and cloud-based data storage.

WORK EXPERIENCE

GreenGym - Full Stack Software Developer

Cork, Ireland | Feb 2026 - Present

Website: <https://greengym.online/>

- Developed and improved user-facing features for the GreenGym web platform using React, TypeScript/JavaScript, HTML and CSS.
- Worked on frontend pages including user profiles, nutrition tracking, exercise libraries, leaderboards and mobile-responsive layouts.
- Integrated frontend features with backend APIs, testing data flow, form submissions, image uploads and error handling.
- Used Docker as part of the development and testing environment to support consistent setup and deployment workflows.
- Collaborated on an Agile-style development process by responding to supervisor feedback, refining UI/UX features and documenting progress through reports and updates.

VMWare - Remote Technical Support Intern

Cork, Ireland | Jan 2022 - Feb 2022

- Collaborated effectively with team members on shared objectives and independently took responsibility of assigned deliverables, contributing to a productive team environment while ensuring accuracy when completing my own tasks.
- Adapted quickly to changes in workflow, applying new information to evolving tasks and processes.
- Demonstrated problem solving skills by identifying challenges and applying new information to resolve issues.

Premier Inn Cork City Centre - Nights Team Member

Cork, Ireland | Jan 2024 - Present

- Delivered reliable service in a fast-paced environment while balancing part-time work with university study.
- Handled guest queries, late check-ins and overnight operational tasks while maintaining accuracy and professionalism.
- Built transferable skills in teamwork, communication, time management, problem-solving and attention to detail.

INTERESTS

- Painting - Custom Footwear & Apparel Artist | <https://www.instagram.com/custom.iced/>
- Cooking - Host themed dinner parties for family and friends every month
- Video games - Played collegiate level eSports tournaments and won a national tournament
- Content Creation - Short-form content creation for social media
